

Vacuum Testing - Vacuum Gauge Test Kit

01397000

Suitable for testing a wide range of Automotive Vacuum applications. Tests vacuum related systems, including ignition, carburetors, automatic transmissions, computer systems, fuel systems etc

Specification:-

- Heavy duty 80mm dual scale compound gauge
- Gauge scales 0-30in Hg mercury / 1 bar, or mmHg / psi
- Supplied with a selection of suitable connectors and 1 metre of 3/16 (od) x 1/16 (id) polyurethane hose
- Complete with comprehensive instruction manual

Also suitable for bleeding brakes and checking brake servos. Identifies leaks in fuel lines, air-conditioning systems, heater cores, motorcycle and marine engine crank cases

Set Contents

- 01397500 - Vacuum Gauge Assembly x 1
- Polyurethane Hose 1/16 id (3/16 od) x 1
- Set of vacuum connectors (4) x 1

Spare Parts :-

- 01397270 Vacuum Hose Pipe
- 01397600 Pipe Connection Fittings

Catalyst Back Pressure / Vacuum Tester

31440000

- Measures the back pressure (or vacuum) via the Lambda Sensor socket, to indicate blocked or damaged catalytic converters. A blockage usually indicates a blocked or broken catalytic converter
- Calibrated gauge scale indicates progressive pass / fail for tests at idle speed and for tests under load - coloured indication

Specification:-

- Gauge scale = -1 to +2 bar
- 2m heat resistant pipe for dynamic testing
- Suitable for M12 x 1.25 and M18 x 1.5 Lambda (Oxygen) Sensor sockets
- Fits most European, Asian, Japanese vehicles
- Gauge to DIN16005, DIN16063, BS1780 standards

Set Contents

- 31440100 Pressure Gauge and Hose Assembly x 1
- Lambda Sensor Socket connectors x 2 (M12, M18)
- Thread Cleaners x 2 (M12 x 1.25, M18 x 1.5)
- Special Adaptor for Toyota vehicles x 1
- Service Kit of seals and washers x 1

Mityvac Hand Held Vacuum & Pressure Pumps

Choose from either:- • **Metal Bodied Pump – Silverline Die-Cast Aluminium Vacuum & Pressure pump**
• **PVC Bodied Pump - Selectline PVC Vacuum Pump**

Silverline Elite Automotive Kit

MV8550

Features:

- Latest new model upgraded to achieve 4bar (60psi) pressure
- Dual convertor to switch from Vacuum to Pressure
- Ideal for a wide variety of diagnostic tests which require a pressure source e.g. EVAP sensors, Cooling system leak tests etc.
- Ideal for a wide variety of workshop tasks requiring Vacuum and / or Pressure e.g. diagnostics, brake bleeding, fluid transfer, evacuation, sampling, windshield repair etc

Kit Contents:

- Silverline Dual Vacuum and Pressure Pump to 4bar
- NEW large 480ml Fluid Reservoir with quick connection to pump
- Selection of 12 vacuum caps
- Diagnostic Adaptor kit
- Brake Bleeding Adaptor kit
- Tubing and Tube Connectors

Selectline Automotive Tune-Up & Brake Bleeding Kit

MV8000

Features:

- Lightweight, non-corrosive and chemical resistant
- Ideal for use around delicate components and vehicle finishes e.g. Windshield repair, Brake bleeding etc.
- Ideal for Brake Bleeding and basic diagnostic checks requiring vacuum

Kit Contents:

- Selectline Hand Vacuum Pump
- 135ml Fluid Reservoir with transfer lid
- Selection of bleed screw adaptors & manifold plugs
- Tubing and tube Connectors

Silverline Dual Vacuum & Pressure Hand Pump to 4bar

MV8510

- Pump with gauge only

Selectline Hand Vacuum Pump

MV8010

- Pump with gauge only
